

Automated **ASK ABD:**

I dislike running reports. Is there a better way to get a pulse on my business?

A very popular component today is a manager board or automated whiteboard.

A whiteboard is your business at a glance. By calling up this module (part of your staffing software) you can see what is happening at a glance. This is a great tool for business owners and managers who require quick and timely recap information.

Statistics would include # of orders taken, cancelled, filled, etc. Numbers of new applicants, billing, payroll, hours, direct hire placements and more.

For more detailed information, you can run reports. For a quick score sheet, simply run a whiteboard. It is convenient and exactly what you need to see what's going on in your staffing and direct hire business.

For more on productive software use and other topics of interest, go to www.ultra-staff.com and click **ASK ABD**. ***ABD is the developer of Ultra-Staff software, which is used nationally by thousands of satisfied staffing industry users.***
